445S
CARBURETOR

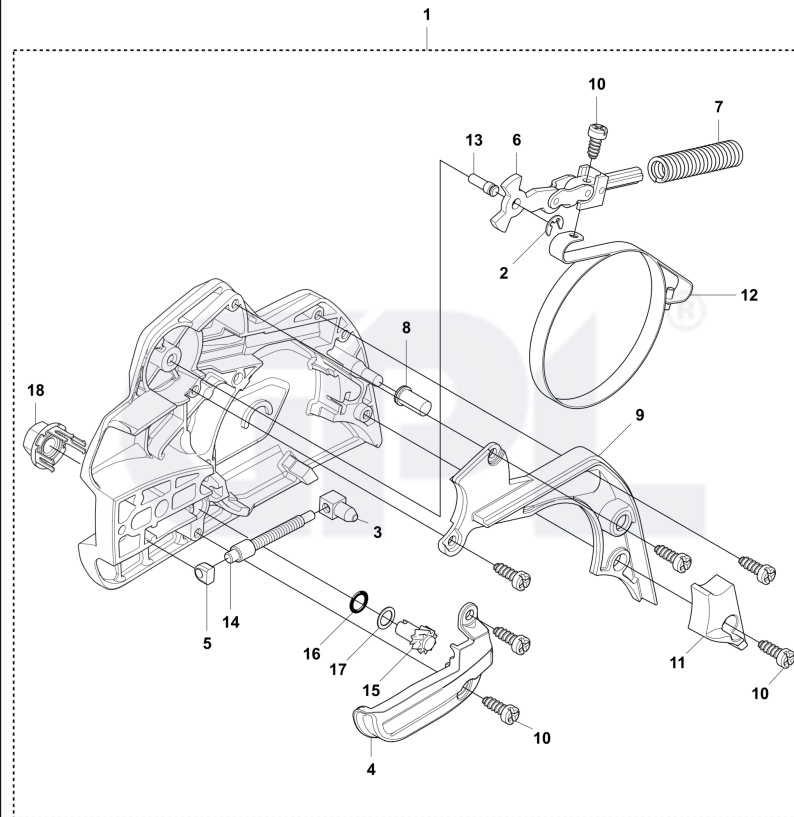

This exploded view diagram illustrates the assembly of a 445S carburetor. The components are arranged vertically and labeled with numbers 1, 2, and 3.
- **Label 1** points to the top of the assembly, specifically the float bowl and its associated screws.
- **Label 2** points to a set of four screws used to secure the float bowl.
- **Label 3** points to the main carburetor body, which includes the throttle linkage and various adjustment points.
The diagram shows the float bowl being lowered onto the main body, with the screws being inserted to tighten it. Below the main body, the throttle linkage and its connecting rod are shown being attached to the bottom of the carburetor.
